Artificial Intelligence and Machine Learning Intern   Aug, 2022– Sep, 2022
Zephyr Technologies and Solutions Pvt. Ltd

Data Science Intern   March, 2022– Apr, 2022
Zephyr Technologies and Solutions Pvt. Ltd

EDUCATION

B.E Computer Science Engineering   2019- 2023
Bearys Institute of Technology, Mangalore
7.25 CGPA

Pre-University   2018-2019
Dhakeerath Higher Secondary English Medium School
72%

CBSE   2017
Essa English Medium School
82%

PROJECTS

Accident & Case Reporting React Application
Github: https://github.com/lameesanees/gis-frontend.git
- **Overview:** Developed a robust web application utilizing the MERN stack (MongoDB, Express.js, React.js, and Node.js) for seamless online reporting and management of accidental cases.
- **User Interface:** Designed an intuitive interface for easy incident reporting with detailed inputs such as location, time, and incident nature.

- **Real-time Updates:** Integrated real-time updates for tracking case progress and subsequent actions.
- **Administrative Dashboard:** Created a dashboard for efficient case management, task assignment, and user communication.
- **Secure Verification:** Implemented OTP verification using Nodemailer for secure registration and login.
- **Payment Integration:** Integrated Stripe for secure payment processing within the platform
- **Responsive Design:** Ensured cross-device compatibility with a responsive design for desktops, tablets, and mobile devices.
